# PPG Seastock Solutions

Global service and supply when and where you need it

## Seastock Capabilities

Our everyday commitment to customers is to optimize operations, innovate market leading products and digital tools, and provide sustainable solutions that minimize environmental impact while prioritizing the health and safety of the crew.

PPG's global reach gives you complete support when and where you need it. Extensive research and experience have resulted in a versatile and streamlined product range that enables PPG to provide top-tier delivery commitments to meet the complex demands of your businesses.

Our range of digital tools and analytic reporting solutions enable visibility into vessel performance and fleet optimization. Helping to simplify onboard coatings management and drive productivity.

- **Global footprint:** Serving over 80 countries and 660 ports worldwide.
- **Simplified inventory:** A lean product assortment simplifies management and onboard storage.
- **Reliable delivery:** A streamlined range allows for prompt, dependable delivery.
- **Sustainability:** Detailed reporting and analysis including Life Cycle Analyses and Product Carbon Footprint.
- **ESG:** Commitment to transparency and progress.
- **Digital solutions:** PPG SIGMACARE® PLUS simplifies onboard coatings management for individual vessels and large fleets.
- **Analytics & optimization:** Advanced reporting tools provide insights into vessel performance and cost-saving opportunities.
- **100 Day transition plan:** Clear, structured process for seamless transitions.

## Key Product Features

PPG's marine coatings business has a robust global footprint offering products that have been tested and trusted for decades. PPG's seastock coatings are easy to apply and perform well in harsh conditions, allowing for efficient maintenance at sea.

- **Focused portfolio:** A streamlined selection of 8 core products meets 90% of vessel needs.
- **Extended vessel life:** Coatings are designed to endure the toughest conditions, ensuring longer-lasting protection for your vessel.
- **Efficiency and performance:** Easy-to-apply products that enhance productivity and reduce downtime.
- **Sustainability & safety:** Committed to providing sustainably advantaged products that are also safer for the crew.
- **Environmental responsibility:** Water-based and ultra-low VOC formulations minimize environmental impact while meeting regulatory standards.
- **Reduced manufacturing energy and emissions:** Contributing to environmental conservation through efficient production processes.

**Your success is our priority**

Trust the world leader in marine coatings to provide products and services that protect customers' assets in some of the world's most demanding sea conditions and environments. We offer advice, support and coatings for new builds, dry dock, seastock, and offshore facilities.
